OUR POLICY

Customer satisfaction is our primary objective, therefore we continuously supervise every stage of the process, from order acceptance to final delivery.

- All processes are based on understanding the customer's needs, both expressed and unexpressed, present and future;
- All personnel, internal and external, are informed and aware of the company policy;
- Continuous improvement of the effectiveness of the quality management system implemented through the commitment of each operator;
- In the event of a dispute over the supply, if product non-conformity is recognised, T.A.I. Srl. undertakes to replace the batch of the supply or parts of it as far as applicable;
- Skills, tools and equipment are continuously updated and improved, through direct and constant contacts with trade associations, publications, conventions and trade fairs.
